ALUMINIUM TURNING

LT 05

LAMINA LT 05 ALUMINIUM TURNING INSERTS JUST GOT BETTER

INTRODUCING THE NS CHIPBREAKER

Our winning aluminium line has been improved by combining our unique PVD coating and submicron substrate with the newly designed NS chipbreaker for flawless aluminium turning.

The new NS chipbreaker has a larger supporting area in the pocket seat which provides greater stability and thus a better surface finish.

Lamina aluminium _CGT turning geometries are single sided positive inserts while our economic _NGG geometries are doubled sided and fit all standard ISO tool holders.
